

I am writing regarding LPFM stations possibly taking priority over the FM translators which currently allow me to listen to K-LOVE on 90.7 here in Hampton Roads. K-LOVE is the only station that my entire family can listen to without fear of what my child will hear and is pretty much the ONLY station we listen to. This station not only provides quality music, but 24 listener support - something NO other station in this area does. In a time when almost all other stations in this area are playing music that I would NEVER let my child listen to because of the language and content, K-LOVE is the one station where I don't have to worry about being ready to change the dial at a moments notice. In a time when everything seems so negative - K-LOVE is a positive. The loss of this station- everywhere it is broadcast- would be a terrible loss. Please help us keep our station. Thank you for your time. Michelle
